**Student Funding**

At Engaged Learning + Research, facilitating student engaged work is one of our top priorities. One of our main methods of achieving this goal is removing funding barriers to our students’ creative problem-solving abilities.

To this end, our Student Funding Handbook compiles a multitude of Cornell-based and external funding opportunities to complement our Engaged Learning + Research grants. This list is not meant to be exhaustive, but rather to provide a starting place for your funding research. Our hope is that these help actualize your ideas for service-learning and engaged work.
